

JOSEPH LECKIE ACADEMY

Supporting Students At School With Medical Conditions Policy

This policy is reviewed e.g. annually in autumn term

Approved by Governors: 06 / 07 / 2017

Review date for Document: 06 / 07 / 2018

Joseph Leckie Academy - Supporting students at school with medical conditions

1 Introduction

At Joseph Leckie Academy we have a duty of care for all our students. The Children and Families Act 2014 includes a duty for schools to support children with medical conditions.

Where children have a disability, the requirements of the Equality Act 2010 will also apply.

Where children have an identified special need, the SEND Code of Practice will also apply.

All children have a right to access the full curriculum, adapted to their medical needs and to receive the on-going support, medicines or care that they require at school to help them manage their condition and keep them well and safe.

At Joseph Leckie Academy we recognise that medical conditions may impact on social and emotional development as well as having educational implications where students may be self-conscious about their condition and some may be bullied or develop emotional disorders such as anxiety or depression. In particular they may have long term absences which impacts on their attainment. Re-integration back into the Academy will be fully supported so that students with medical conditions are able to fully engage with learning and do not fall behind when they are unable to attend.

At Joseph Leckie Academy we fully consider the advice from healthcare professionals, other agencies and parents in order to effectively support students with medical conditions.

2. Individual Healthcare plans (IHP)

- An IHP will be written for students with a medical condition that is long term and complex. This also includes Asthma Plans, Diabetic Action Plans, Allergy Action Plans or Epileptic Action Plans which follow the same procedures.
- It will clarify what needs to be done, when and by whom and include information about the students' condition, special requirements, medicines required, what constitutes an emergency and action to take in the case of an emergency clarity.
- Where a student has SEND but does not have a statement or EHC plan, their special educational needs will be mentioned in their IHP.
- Written consent (Appendix 6 Academy First Aid Policy) from parents must be received before administering any medicine to a student at school.

When deciding what information should be recorded on the IHP, the Academy will consider the following:

- the medical condition, triggers, signs, symptoms and treatments
- the students' needs including medication (dose, side-effects and storage)
- other treatments, time facilities, equipment, testing, access to food and drink, dietary requirements, environmental factors (e.g. corridors, travel between lessons)
- specific support needed to administer medication or self-medication (if so this should be clearly stated)
- who will provide support, their training needs, expectations of their role, proficiency to administer the support and cover arrangements when they are unavailable
- who needs to be aware of the condition and support required
- written permissions for the medication to be administered or self-administered
- any special arrangements for academy trips
- confidentiality issues and who should be given this information
- what to do in an emergency, who to contact and contingency arrangement

3. Roles and Responsibilities

The Governing Body is responsible for:

- Determining the Academy's general policy and ensuring that arrangements are in place to support students with medical conditions.

The Principal has overall responsibility for the implementation of this policy and has made the following arrangements as outlined in the Statutory Guidance for 'Supporting students at school with medical conditions' DfE April, 2014.

The Principal is responsible for:

- overseeing the management and provision of support for students with medical conditions
- ensuring that sufficient trained numbers of staff are available to implement the policy and deliver individual healthcare plans, including to cover absence and staff turnover
- ensuring that academy staff are appropriately insured and are aware that they are insured

The Leadership Team member with responsibility for Health and Safety, Miss R Cook, will ensure that:

- staff responsible for administering this policy are appropriately trained in their roles
- all staff are made aware of the policy and procedures and their role in supporting students with medical conditions
- ensuring that staff teaching or supporting students with medical conditions receive sufficient and suitable training and achieve the necessary level of competency to carry out their role

The Appointed Person who is also The Competent Person will ensure that:

- Health Care Plans (IHP)'s are completed by HOY/transition Manager/SENDCO and updates are carried out for students
- PEEP's are completed by HOY for students with medical conditions/injuries as required
- There is support for HOY when a Risk Assessment is required for a student
- Procedures for dealing with students with medical conditions are followed by administration/support staff and First Aiders (see First Aid Policy)
- Procedures for checking Parental medical consent forms and medication have been followed
- All First Aid/Emergency First Aid staff are aware of students on this list each half term

New Year 7 students:

The Transition Manager Dr C Gardiner is responsible for the induction of Year 7 students including those with medical conditions.

This person is responsible for:

- ensuring the Individual Healthcare plan (IHP) is written or updated in consultation with parents and other healthcare professionals, or other Academy staff as necessary before the start of their first term in the Academy or within two weeks after enrolment if they start during the year.
- ensuring that any other medical condition (where no IHP is required) is also recorded on SIMS
- ensuring that where students also have a Special Educational Needs statement that the SENDCO is involved in writing/amending the Educational Health Care plan and IHP
- ensuring that where medication is required to be administered in school that the "Parental Medicine Consent Form" (Appendix 6 of First Aid Policy) is completed and attached to the IHC (where applicable) or where no IHP is required, the form is passed to the Appointed Officer
- ensuring that where medication is stored by the Academy, and there is a valid reason why this is not stored in the back office, the location and reason for this is clearly noted on the HCP
- ensuring that students know where their medications are stored
- ensuring that where it may be necessary to consult with a GP or medical consultants/nurses, that parental permission is obtained using the agreed parental letter
- carrying out a PEEP where there is a disability and attaching this to the IHP and passing it to the Appointed Person to put onto SIMS

- informing relevant teaching staff, tutor and Head of Year 8 when students move up into the next year of students with medical conditions and PEEP's (where applicable)
- informing all First Aiders of students with medical conditions
- ensuring the IHP, any other medical information and/or parental consent forms are filed with the office Appointed Officer for IHP's (Mrs K Matharu) for uploading onto SIMS
- reviewing the IHP and PEEP (where applicable), at regular intervals as stated in the plan or in consultation with parents, medical professionals if the condition changes.

Newly Arrived Students (NAS)

Newly Arrived Students Co-ordinator, Mrs M Matharu, will complete the mid-term admission pupil profile and identify any medical conditions. Where medical conditions are identified, Mrs M Matharu will obtain parental consent to allow her to notify the relevant persons of any medical conditions that the student has. Where a student requires medication, Mrs M Matharu will obtain parental consent (using Appendix 6). This includes everything from a minor to a serious medical condition. Mrs M Matharu will inform the HOY that an IHP may be required and will also pass on this information to the Designated Person (Mrs M DeRome).

Designated Person, Mrs DeRome will complete a school health referral form "**referral and patient registration for children's services**" and fax it off to Walsall School Nursing service.

Mrs DeRome will then notify the HOY that the referral has been made.

The Newly Arrived Student Co-ordinator is responsible for

- informing the HOY of any students with medical conditions
- ensuring that where medication is required to be administered in school that the "Parental Medicine Consent Form " (Appendix 6 of First Aid Policy) is completed and attached to the IHP (where applicable) or where no IHP is required, the form is passed to the Appointed Officer
- ensuring that where medication is stored by the Academy, and there is a valid reason why this is not stored in the back office, the location and reason for this is clearly noted on the HCP
- ensuring that students know where their medications are stored
- ensuring that where it may be necessary to consult with a GP or medical consultants/nurses, that parental permission is gained using the agreed parental letter
- informing relevant teaching staff, tutor of students with medical conditions and PEEP's (where applicable)
- supporting the teaching HOY's with completing the IHP for a as outlined below for the newly arrived student.

The Head of Year is responsible for:

- ensuring the IHP is written or updated in consultation with parents, and other healthcare professionals, SENDCO and/or S Arnold (only if a Buildings Risk Assessment is required) as necessary within two weeks of their arrival in school
- ensuring that where students also have a Special Educational Needs statement or Disability (EHC) that the SENDCO is involved in writing/amending the IHP
- carrying out a PEEP where there is a disability or temporary injury that limits mobility and attaching this to the IHP and passing it to the Appointed Officer to put onto SIMS
- ensuring that where medication is required to be administered in school that the "Parental Medicine Consent Form " (Appendix 6 of First Aid Policy) is completed and attached to the IHP (where applicable) or where no IHP is required, the form is passed to the Appointed Officer
- ensuring that where medication is stored by the Academy, and there is a valid reason why this is not stored in the back office, the location and reason for this is clearly noted on the HCP
- ensuring that students know where their medications are stored

- ensuring the IHP, any other medical information and/or parental consent forms are filed with the Appointed Officer for IHP's (Mrs K Matharu) who will upload onto SIMS
- developing, monitoring and reviewing the IHP and PEEP (where applicable) at regular intervals (as stated in the plan) or in consultation with parents, medical professionals if the condition changes.

Please note:

Where students already have an Asthma Plan, Diabetic Action Plan, Allergy Action Plan or Epileptic Action Plan they may not need to have a separate IHP. The HOY and/or Transition Manager will check that the information contained in the plan is up to date accurate (and includes all the information required in an IHP as stated on page 1). They will ensure there is Parental Consent for administering any medication in school (Appendix 6 - First Aid Policy) where medication needs to be administered in school. A separate IHP may be needed where this child suffers from other conditions. The Plan will be uploaded to SIMS and monitored and updated in the same way as an IHP. There is no need to duplicate work.

The Head of Year (HOY) is responsible for students with newly diagnosed medical conditions even when these are not formally diagnosed:

- If a student in their year who has been newly diagnosed with a medical condition, a student returning from a period of hospitalisation or where needs have changed, within two weeks of notification they will arrange a meeting together with parents, healthcare professionals, other agencies, SENDCO, S Arnold (if a Buildings Risk Assessment is required) and/or other relevant staff as necessary
- They will then decide if an IHP (even if it is not diagnosed at present) is required or a PEEP or parental consent for medication is needed and follow the process outlined in the HOY role above.

For all students on an IHP, the Head of Year is responsible for:

- arranging for the IHP and PEEP (where applicable) to be reviewed annually, or earlier if evidence is provided that a student's needs have changed from parents, by a member of academy staff or healthcare professional
- ensuring the Appointed Officer (IHP) records the medical condition and PEEP (where applicable) or changes onto SIMS
- informing relevant staff (teaching, tutors and First Aiders of any changes)
- keeping a copy of the IHP and PEEP (where applicable) in the students records file and copies of any amendments made in their files including emails and memos sent to staff

Please note that 'teaching' HOY will have some administration support in typing up, scanning and filing of IHP's and associated documentation, but it is still responsibility to establish and conduct the review meeting with parents and other agencies and they must take overall responsibility to ensure the process is completed fully.

Concerns over medical conditions:

Where there is a concern over a medical condition and the person writing the IHC is unsure of who to involve or is concerned about the safety of the pupil or others, they must consult the Vice Principal for Health and Safety and/or The Principal.

The SENDCO is responsible for:

- liaising with the Transition Manager, NAS Co-ordinator and HOY in developing, monitoring and reviewing IHP's and PEEP's (where applicable) for those students with an EHC plan
- Where a student has an EHC plan which mentions a long term and complex medical condition and there is no IHP, they must inform the HOY that an IHP is required and the SENDCO will support the HOY in drawing up a IHC in these cases
- Where a student has a EHC plan which mentions a medical condition and there is no IHC and no IHP is required (minor condition) then they MUST pass on the medical information and any parental consent forms for medication (if required) to the Appointed Officer to ensure this is recorded on SIMS

- Where a student has a special educational need in a statement or EHC plan, their special educational need will also be mentioned within the IHP

The Appointed Officer for IHP's (Mrs K Matharu) is responsible for:

- scanning and filing IHP and maintaining accurate and up-to date records
- recording any other medical issues onto SIMS which have been passed on by the SENDCO or HOY
- storing and issuing medication to students with IHP's or passing to other named persons in the plan to issue/administer
- informing parents when medication is out of date and in need of safe disposal and replacements
- filing the parental consent forms and ensuring these are up to date or renewed if medication changes
- ensuring that where medication is stored by the Academy, and there is a valid reason why this is not stored in the back office, as indicated on the HCP, the location is recorded on a quick note on SIMS and the parental consent is filed with the medication after scanning
- informing HOY when the IHP and PEEP (where applicable) needs reviewing
- ensuring that IHP and PEEP (where applicable) or changes are recorded on SIMS
- informing all HOY, First Aiders of students with medical conditions at the start of each month

Reception Staff are responsible for:

- forward all parental consent forms for headaches to the Appointed Officer who will scan onto SIMS and return to reception staff to file these with the medication in a secure place in Reception
- administering medication to students as stated on the consent forms
- receiving new medication for all other conditions from parents and passing onto Appointed Officer for safe storage and filing
- checking that parents have signed a consent form for new medication brought in and passing to the Appointed officer

The External Visits Co-ordinator is responsible for:

- Assisting staff with risk assessment for Academy visits and other activities outside of the normal timetable to ensure that students with medical conditions are able to participate in off-site activities

Heads of Faculty/Department are responsible for:

- communicating necessary information about medical conditions to cover staff
- communicating necessary information about medical conditions to new teaching staff in their subject at the start of a new academic year or following a set change during the year for a student with a medical need via an agenda item on faculty/departmental meetings
- ensuring that staff teaching or supporting students with medical conditions in their subject area receive sufficient and suitable training and achieve the necessary level of competency to carry out their role
- ensuring that they and their staff are familiar with the First Aid Policy for dealing with an emergency in their classroom or around the Academy

Teaching and support staff are responsible for:

- ensuring that they are aware of the medical conditions for all the students that they teach/support
- communicating necessary information about medical conditions to cover staff
- communicating necessary information about medical conditions to new teaching staff in their subject following a set change during the year

- undertaking sufficient and suitable training to achieve the necessary level of competency before taking on their role in teaching or supporting students with medical conditions
- ensure that students with medical conditions are able to participate in all curricular and extra-curricular activities by modifying and adapting risk assessments for lessons and activities to include students with medical conditions
- the day to day management of the medical conditions of students they work with, in line with training received and as set out in IHP's and how to deal with these students in an emergency
- ensuring that they are familiar with the First Aid Policy for dealing with an emergency in their classroom or around the Academy

4. Administering of medicines

Before administering any medication the relevant First Aider; Appointed Person or other member of staff must check to see that:

- written consent (Appendix 6 Academy First Aid Policy) from parents has been received before administering any medicine to a student at school.
- The medication:
 - is prescribed for that student
 - in-date
 - labelled
 - provided in the original container as dispensed by a pharmacist and include instructions for administration, dosage and storage.

N.B. The exception to this is insulin which must be in date but will generally be available inside an insulin pen or pump, rather than in its original container.

The Academy will ensure that:

- medicines are stored safely.
- students should know where their medicines are at all times.
- written records will be kept of all medicines administered to students, stating what, how much, when and by whom
- students who are competent to manage their own health needs and medicines, after discussion with parents/carers will be allowed to carry their own medicines and relevant devices or will be allowed to access their medicines for self-medication
- students who refuse to take their medication or carry out a necessary procedure, staff should not force them to do so, but follow the agreed procedure in the IHC plan. Parents should be informed so that alternative options can be considered
- when no longer required or out of date, medicines should be returned to parents to arrange for their safe disposal

5. Action in Emergencies

See the Academy's First Aid Policy for procedures in dealing with emergencies.

6. Activities beyond the curriculum

Reasonable adjustments will be made to enable students with medical needs to participate fully and safely in day trips, residential visits, sporting activities and other activities beyond the usual curriculum.

When carrying out risk assessments, parents/carers, students and healthcare professionals will be consulted where appropriate

7. Good Practice

The following items are good practice with regard to students with medical conditions, the academy will respond to each individual case in the most appropriate manner.

Academy staff will:

- encourage students to have their inhalers with them at all times
- allow students to receive their medication when and where necessary
- not assume that every student with the same condition requires the same treatment
- not assume that a student may be faking a medical condition but treat each condition with appropriate First Aid/support as required, our procedures allow medical conditions to be monitored by HOY and other key staff in order to take preventative actions as required
- consider the views of the student or their parents, medical evidence or opinion, (although this may be challenged where appropriate)
- avoid sending students with medical conditions home frequently
- allow students with medical conditions to stay for normal academy activities, unless this is specified in their individual healthcare plans
- send them to the Academy reception if they become too ill to stay under the teachers supervision but always accompanied with someone suitable
- encourage good attendance, encourage parents to arrange appointments outside of school time wherever possible, but not penalise students for their attendance record if their absences are related to their medical condition e.g. hospital appointments
- allow students with medical conditions to drink, eat or taking toilet or other breaks whenever they need to in order to manage their medical condition effectively
- administer medication and provide medical support to their student, including with toileting issues. No parent should have to give up working because the academy is failing to support their student's medical needs
- reduce any unnecessary barriers to students participating in any aspect of academy life, including academy trips, e.g. by not requiring parents to accompany the student

8. Complaints

An individual wishing to make a complaint about actions regarding the Academy's actions in supporting a student with medical conditions should discuss this with the Principal in the first instance. If the issue is not resolved, then a formal complaint may be made, following the Academy Complaints Procedure.

Process for developing Individual Healthcare plans

Parent, Primary school or healthcare professional informs the academy that a child has a healthcare plan or has been diagnosed with a new condition or that needs have changed
